

PARC reduces the complexity of designing and building parking structures and offers owners & developers a more efficient (e.g. 8 (8 19%)-Gain- from entitlement to hand over.

As a result, PARC delivers a low-risk, high-quality parking structure with design flexibility at the lowest cost in the shortest amount of time. For owners, this means overall cost reductions of 5%-10%, and structures delivered 30%-50% faster than traditional methods.

- Design - Minimum 60% - 80% reduction in design time
- Construction - Minimum 30% - 50% reduction in construction time
- Overall - Minimum 5% - 10% reduction in overall cost
- Low risk - Minimum 5% - 10% reduction in risk
- Low cost - Minimum 5% - 10% reduction in cost
- Low time - Minimum 30% - 50% reduction in time
- Cost - Minimum 5% - 10% reduction in cost
- PARC Features - Minimum 5% - 10% reduction in cost
- 5-10% reduction in overall cost
